Pressure Cookers

Ollas a Presión
Autocuiseurs

Since the manufacture of the **first Pressure Cooker** in 1923, we make pressure equipment of **Stainless Steel**. We **design** and **produce pressure equipment** in compliance with the **European Directive 97/23/CE** and all other European regulation applicable to each of the products. We also **produce the equipments following the instructions and designs of our customers**.

We offer protocols of Arc welding using a **tungsten electrode and inert shielding gas (TIG welding)** under the standards UNE-EN ISO 15614-1 and all our welders are certified.

PRESSURE COOKER, AUTOCLAVE, DIGESTERS, PRESSURE TEST BENCHES...

CUSTOMIZED MANUFACTURING

WE MAKE ANY TYPE OF PRESSURE EQUIPMENT FROM STAINLESS STEEL UNDER THE SPECIFIC INDICATIONS OF THE CUSTOMER REGARDING SIZE, THICKNESS, ETC. (UPON REQUEST).
